

# Test Blueprint – Exam 2

Sessions	Test Content	# Items*
2.01 COPD 1	Know histology and pathophysiology of COPD	8
2.02 COPD 2	Know defining characteristics of COPD by lung volume, pulmonary function testing and radiography	
(R) 2.05 Case Conference Asthma/COPD		
2.03 Asthma 1	Know pathophysiology of asthma	8
2.04 Asthma 2	Know asthma treatments including indications, mechanism of action, and side effects	
(R) 2.05 Case Conference Asthma/COPD		
2.06 Lung Cancer 1	Identify systemic manifestations of lung cancer	8
2.07 Lung Cancer 2	Identify lung cancer risk factors	
2.08 Lung Cancer Treatment	Be familiar with basic diagnosis and management of lung cancer	
(R) 2.13 Case Conference Lung Cancer	Identify lung cancer by histopathology	
2.09 Tobacco Cessation	Know how smoking affects the respiratory system Know benefits of smoking cessation	2
2.10 Pediatric Lung Diseases	Be familiar with common clinical presentations of pediatric respiratory disease, risk factors and treatment	3
2.11 Obstructive Sleep Apnea	Distinguish between central and obstructive sleep apnea Describe the pathophysiology of obstructive sleep apnea Know how to diagnose obstructive sleep apnea	4
2.12 Sarcoidosis	Identify clinical and radiographic presentation of sarcoidosis	1
2.14 Lung Injury & Interstitial lung disease Pathology	Know clinical presentation and prognosis of pulmonary fibrosis Identify pulmonary function findings for interstitial lung disease	6
2.15 Interstitial lung disease	Distinguish various types of interstitial lung disease and associated risk factors	
	<b>Total</b>	<b>40</b>
